the last kings of macedonia and the triumph of rome provides a chronicle of the last three kings of macedonia philip v r 221 179 his son perseus r 179 168 and the pretender andriscus or philip vi r 149 148 far from being a mere postscript to macedonia s classical greatness or collateral damage in rome s ascendancy in the east philip and perseus should be remembered for heroically striving to preserve their kingdom s independence against staggering odds

philip v of macedon in polybius histories politics history and fiction offers a historiographical and literary study of polybius portrait of philip v and aims to advance our knowledge of both the macedonian king and the historian it takes a chronological and thematic approach exploring how polybius political historiographical and didactic aims impact the king s

depiction from beginning to end the first half focuses on political and rhetorical aspects it highlights the embedded achaeian perspective of the narrative and how this fundamentally shapes philip's image it re-evaluates key character defining episodes such as the sack of thermum and the attempt on messene and it problematizes polybius' claim that philip became increasingly treacherous and tyrannical towards the greeks after 215 bc the second half explores how polybius develops his interpretation of the king through ideological and literary means it investigates how polybius uses cultural politics to blacken philip's image and justify the exchange of macedon and rome as hegemonic powers in the greek world it rationalizes his use of a tragic mode for philip's last years examining the implications this styling has for our historical understanding of the king and it considers how tensions between polybius' narrative and commentary on philip may be the result of his combination of historiographical and biographical modes of presentation it finishes by resituating philip in the broader context of the histories drawing comparisons between his portrait and that of other kings and leaders and discussing how kings are shaped by and contribute to the arguments in the histories
