classic keys is a beautifully photographed and illustrated book focusing on the
signature rock keyboard sounds of the 1950s to the early 1980s it celebrates the
hammond b 3 organ rhodes and wurlitzer electric pianos the vox continental and
farfisa combo organs the hohner clavinet the mellotron the minimoog and other
famous and collectable instruments from the earliest days of rock music the role of
keyboards has grown dramatically advancements in electronics created a crescendo
of musical invention in the thirty short years between 1950 and 1980 the rock
keyboard went from being whatever down on its luck piano awaited a band in a bar

or concert hall to a portable digital orchestra it made keyboards a centerpiece of the sound of many top rock bands and a handful of them became icons of both sound and design their sounds live on digitally in the memory chips of modern keyboards and in their original form thanks to a growing group of musicians and collectors of many ages and nationalities classic keys explores the sound lore and technology of these iconic instruments including their place in the historical development of keyboard instruments music and the international keyboard instrument industry twelve significant instruments are presented as the chapter foundations together with information about and comparisons with more than thirty six others included are short profiles of modern musicians composers and others who collect use and prize these instruments years after they went out of production both authors are avid musicians collect and restore vintage keyboards and are well known and respected in the international community of web forums devoted to these instruments

runways and racers focuses on sports car races held at military installations throughout america in the early 1950s it was a marriage of convenience for the sports car club of america and the strategic air command with both parties gaining advantages from the arrangement the thorn in the side turned out to be a congressman whose own aspirations exceeded his standing but who found himself in a position to be able to influence the outcome of events

this book focuses on the different aspects that contributed to the development of northeast american sports car racing during the 1950s the evolution from amateur drivers racing on public roads in 1950 to both professional and amateur drivers racing at private purpose built tracks in 1959 demanded huge leaps of faith trust and understanding the transition was neither easy nor uneventful for drivers clubs or track owners and the tragedy politics and in

there has been plenty said and written about scooters over the years but until now there has been no definitive look at the culture surrounding our chosen way of life many authors have written about mods and the infamous and often over hyped beach battles of the 1960s but hardly any have tried to capture the atmosphere of the modern scene in print we still owe the original mods for fuelling the imagination of past present and future generations and for leaving a rich scooter heritage behind them although the mod way of life was the spark which lit the fuse for many of us

the majority of scooter riders have evolved into lifestyle scooterists we may not dress in a particular style our scooters may not be adorned with lights and mirrors but we still burn with the same passion as our scooter riding ancestors it s over sixty years since the first italian scooters rolled off the production lines but there is still a buzzing and vibrant lifestyle surrounding them the small capacity machines have overtaken the lives of thousands of us often to the detriment of everything else we hold dear careers relationships and families have suffered for this overwhelming and expensive addiction an addiction to which there is no cure we live and breathe the sickly sweet smell of synthetic two stroke oil and worship at the altar of our chosen gods lambretta and vespa or occasionally gilera and italjet our hands are permanently ingrained with the oily tattoo s of a thousand engine rebuilds and our major organs have suffered the long term effects of our hedonistic lifestyle including interviews with well known scootering personalities over 150 colour photographs of award winning custom scooters best selling scooter models and information on rallies and events this book is a must have for anyone interested in these fun machines

the naturalist frequently finds that to learn to identify species is a most difficult task and yet nothing is more important to his work he finds that species are not separated merely on shape and colour but on structural peculiarities which frequently are connected with particular habits this is especially the case in vertebrate animals which in great britain with its very limited number of forms may be identified in a haphazard manner by elimination this is impossible in a country where different climatic areas interdigitate and where there are many species as the united states which for the purpose of the naturalist is a continent here prof h s pratt fills the bill by his vertebrate animals of the united states which however omits birds a short account of each group is given the anatomical features dividing it up into sub groups and families being usually illustrated where necessary special features for families are described and then follow keys to the genera descriptions of the same and keys to their species the whole closes with a good bibliography and a glossary of technical terms the short descriptions of each species with mention of their geographical distributions and habitats are excellent and the tabulation of the sub species most useful we learn that there are about 600 species of freshwater fishes 70 of newts and 61 of frogs and toads we are given a key by which their tadpoles and eggs can be identified 300 reptiles and a wide series of mammals belonging to 9 orders we characterise this publication as a book for ready reference such as should be on the

shelves of all american naturalists

very few motorcycles have carved a mark in history like the vincent v twin from its arrival in 1946 and up to the present day on the road in club racing in drag races or competing for land speed records it dominated the motorcycle world leading to the famous catchphrase coined by the factory the world s fastest standard motorcycle it was a fact not a slogan images such as that of rollie free in swimming trunks laying flat on his works modified black shadow and taking the american motorcycle land speed record at bonneville in 1948 have now passed into posterity in fact the big vincent was so ahead of its time that it continued to compete successfully almost arrogantly in racing until the mid 1970s against modern bikes no other motorcycle in the world can claim this kind of achievement following the premature ending of vincent production fritz egli s 1967 egli vincent was the first chassis completely redesigned for a vincent in 21 years egli s machine inspired numerous builders for several generations and this book traces holistically the story of all those motorcycles in the broad context of the classic and modern history of the vincent understand how the flame of passion still burns brightly today

a unique book dedicated to the murcielago lamborghini s iconic flagship with its v12 bizzarrini engine spaceframe chassis and scissor doors this was the last car to use the classic bizzarrini engine

this is a story of excitement laughs astonishment and anger a story of the determination of a man with a dream and a passion for motor racing in the big leagues it is the first time that the history of the always under financed gordini racing team has been documented in english and the first complete story of gordini himself in any language this volume will appeal to new enthusiasts and old hands of formula 1 and sports prototype racing especially those who have owned a gordini badged high performance renault road car it charts gordini s early life and beginnings in motorsport up to 1969 when renault took over the gordini company keeping his name on all the racing engines until 1986 before finally resurrecting it for a performance version of the renault twingo and clio in 2009 the book is packed with evocative period images from important collections supplementary transcripts in english from many contemporary interviews plus recollections from former employees remembering their time working with gordini and an exhaustive set of

statistics all the way it s a roller coaster of joy despair humour and stunning images the racing legend of le sorcier lives on

ford cars can be found all over the world and vintage models appear at most classic car shows this book helps to identify the models sold by ford of britain and provides detailed information on each model with technical specifications original colour photographs and lists the colour schemes that were available continuing this popular series covering classic british cars david rowe now turns his keen eye to the british ford models he is well placed to do so having worked at two ford dealerships over a 30 year period and has driven many of the models covered by this book

explores the design development and production of the lotus europa lotus s first mid engined road car it covers the renault powered series 1 and 2 cars the lotus twin cam engined versions and the type 47 racing models
