this collection draws on books journals reports and historical papers to map the vast field of education for adults this collection will make many major works more readily available

case studies conducted in maharashtra and karnataka

this timely research handbook reckons with the past present and future of liberalism at a time when anxieties are being expressed about its viability duncan ivison brings together a broad and international range of leading experts to explore the complexities of liberalism examining the extent to which it can address rising challenges from illiberalism to inequality

jürgen maass wolfgang schlöglmann theory and practice of mathematics education for adults our world is dominated by technological developments the philosopher heinz hülsmann wrote that atom gen and bit are the three basic principles now see hülsmann 1985 each of the so called new technologies is based upon mathematics the first computer was built as a part of the manhattan project to calculate models of the atomic bomb the human genome project uses computers very often to find out the structure of the genome and computers are mathematical machines materialised mathematics social organisations companies and not least governments use computers to process information a precondition for this is to

formalise the social or economical structure which produces the information this formalisation is a type of mathematisation too the social and economical models of organisations or companies are a part of the process of mathematising the world last but not least mathematics is a part of everyday life and work people handle money buy things do handywork at home measure areas to paint and so on all together mathematics is not only the basis for technology economy work and everyday life but a part of our culture it seems clear that everyone in our society should know more about this

using examples from a Reggio inspired school with children from ages 6 weeks to 6 years the authors emphasize the importance of children's rights and our responsibility as adults to hear their voices seen and heard summarizes research and theory pertaining to young children's rights in the United States and offers strategies educators can use to ensure the inclusion of children's perspectives in everyday decisions real life classroom vignettes illustrate how young children perceive the idea of rights through observation and discussion the authors work is based on these essential ideas 1 the one hundred languages children use for exploring discovering constructing representing and conveying their ideas 2 the pedagogy of listening in which children and adults carefully attend to the world and to one another 3 the notion that all children have the right to participate in the communities in which they reside

this book challenges the adult centric tendencies of migration research and policy which often overlooks children and young people's own experiences of migration a wide range of international contributors provide careful analysis of the situations of children in contemporary transnational migratory contexts in the global north and south drawing on studies with migrant children and young people in a variety of situations transnational migration and childhood makes a unique contribution to furthering our understandings of transnational childhoods it explores the laws and policies that govern children and young people's experiences of transnational migration whilst foregrounding their own accounts of migration and transnationalism the book shifts our attention away from dominant discourses of migrant children as victims towards the development of broader conceptualisations of transnational migration and childhood it incorporates different migratory flows a variety of sending and receiving contexts and child centred perspectives transnational migration and childhood will be of interest to researchers and policy makers working in the fields of migration asylum and childhood at local national and transnational scales this book was originally published as a special issue of the journal of ethnic and migration studies

recently there has been an increased understanding that learning occurs outside of the traditional classroom setting particularly for adult lifelong learners this perspective has enhanced an attentive design in the underlying technological architecture that is required for the integration of formal and informal learning environments synergic integration of formal and informal e learning environments for adult lifelong learners presents a collection of issues and research from adult education professionals who define develop implement and evaluate the integration of formal and informal e learning environments for adult lifelong learners academics teachers administrators and learning technologists will benefit from this publication's unique approach to discussing and analyzing the challenges of introducing and implementing learning technologies for adult lifelong learners

beyond the undergraduate and graduate levels education has traditionally ceased when students enter the workforce as professionals in their respective fields however recent trends in education have found that adult students beyond the traditional university age often benefit greatly from returning to further their education adult and continuing education concepts methodologies tools and applications investigates some of the most promising trends in furthering education and professional development in a variety of settings and industries with an extensive array of chapters on topics ranging from non traditional students to online and distance education for adult learners this multi volume reference book will provide students

educators and industry professionals with the tools necessary to make the most of their return to the classroom

to understand the current moment in school accountability one must understand the larger contradictions in education politics accountability frankenstein provides a broader perspective on the school accountability debate by exploring the contradictions inherent in high stakes testing accountability frankenstein explains the historical and social origins of test based accountability the political roots of accountability why we trust test scores while we distrust teachers the assumptions behind formulaic accountability systems and the weaknesses with the current carrot and stick approach to motivating teachers accountability frankenstein answers the questions of educators and parents who want to understand the origins of accountability this book challenges the beliefs of fierce advocates and opponents of highstakes testing it provides a rescue plan for accountability after the failures of high stakes testing a plan to make accountability smart democratic and real

explore ot from multiple perspectives from theory to practice a who s who of theorists educators and practitioners explores the concept of occupation and its role as the foundation for occupational therapy practice today each contributor explains the conceptual models frameworks paradigms or theoretically based guidelines that they have developed over many years of practice experience and research case studies at the end of each chapter illustrate how theory translates into real world practice in the field

in this enjoyable volume kay stone has selected writings from her scholarly articles and books spanning 1975 2004 that contain reflections on the value of fairy tales as adult literature the title some day your witch will come twists a walt disney lyric to challenge the typical fairy tale framework and is a nod to stone s innovative and sometimes unconventional perspective as a whole this collection is a fascinating look at both the evolution of a career and the recent history of fairy tale scholarship

early childhood curriculum for all learners integrating play and literacy activities is designed to teach early childhood professionals about the latest research on play and early literacy and then to show them practical methods for adapting this research to everyday classroom practices that will encourage the development of learning skills the authors link solid play based research to specific developmentally appropriate practices by combining these two areas the text demonstrates that academic learning and play activities are highly compatible and that children can and do develop academic skills through play in addition the text focuses on socio dramatic play a recently acknowledged essential aspect of child initiated play interactions it provides specific strategies that link these interactive behaviors with the early academic skills needed for the initial primary grades implementation of the information presented in this book will enable children to experience a richer transition into primary education classrooms
