originally published in 1995 the early writings of harold w clark and frank lewis marsh is the eighth volume in the creationism in twentieth century america series reissued in 2019 the book is a collection of original writings by the prominent creationist harold w clark and the biologist educator and young earth creationist frank lewis marsh although both were significant figures in the anti evolutionist movement of the early 20th century unlike other members of the movement both marsh and clarke were trained scientists studying

under eminent evolutionists of the time both writers struggled to reconcile new scientific understandings of geology botany and palaeontology supported by darwin s theory of evolution with their own creationist beliefs in genesis and flood theory both scientists as such began to develop their own theories of evolution that remained in line with creationist beliefs this compact and unique collection includes the writings of marsh and clark from this period featuring some of their well known works on the subject including back to creation and fundamental biology this volume of original sources will be of interest to academics of religion natural history and historians of the 19th century

forty seven percent of the american people according to a 1991 gallup poll believe that god made man as man is now in a single act of creation and within the last ten thousand years ronald l numbers chronicles the astonishing resurgence of this belief since the 1960s as well as the creationist movement s tangled roots in the theologies of late nineteenth and early twentieth century baptists presbyterians lutherans adventists and other religious groups even more remarkable than numbers s story of today s widespread rejection of the theory of evolution is the dramatic shift from acceptance of the earth s antiquity to the insistence of present day scientific creationists that most fossils date back to noah s flood and its aftermath and that the earth itself is not more than ten thousand years old numbers traces the evolution of scientific creationism and shows how the creationist movement challenges the very meaning of science

the record of each copyright registration listed in the catalog includes a description of the work copyrighted and data relating to the copyright claim the name of the copyright claimant as given in the application for registration the copyright date the copyright registration number etc

this series surveys three centuries of keyboard music including representative shorter works by bach handel scarlatti c p e bach haydn clementi mozart beethoven schubert mendelssohn chopin schumann tchaikovsky grieg and macdowell the student is helped to achieve stylistically correct performance through editing based on original sources clear interpretation of ornaments a glossary of musical terms and symbols for each book and biographical material on composers relating them to their period in music history

twenty six delightful pieces in the romantic style that are instant favorites with intermediate students in these pieces carefully culled from gurlitt s vast output the student can explore all the technical and stylistic hallmarks of the entire romantic period in music that is easy accessible and appealing

the british archaeologist grahame clark was a seminal figure in european and world archaeology for more than half of the twentieth century but at the same time one whose reputation has been outshone by other more visible luminaries his works were never aimed at a wide general public nor did he become a television or radio personality clark

was above all a scholar whose contributions to world archaeology were enormous he was also convinced that the study of prehistory was important for all humanity and spent his career saying so for this he was awarded the prestigious erasmus prize in 1990 an award only rarely given to archaeologists this intellectual biography describes clark s remarkable career and assesses his seminal contributions to archaeology clark became interested in archaeology while at school studied the subject at cambridge university and completed a groundbreaking doctorate on the mesolithic cultures of britain in 1931 he followed this study with a magisterial survey the mesolithic settlement of northern europe 1936 which established him as an international authority on the period at the same time he became interested in the interplay between changing ancient environment and ancient human societies in a series of excavations and important papers he developed environmental archaeology and the notion of ecological systems as a foundation of scientific multidisciplinary archaeology culminating in his world famous excavations at starr carr england in 1949 and his prehistoric europe the economic basis 1952 clark became disney professor of public archaeology at cambridge in 1952 and influenced an entire generation of undergraduates to become archaeologists in all parts of the world he was also the author of the first book on a global human prehistory world prehistory 1961

a world list of books in the english language
