this is the first title in this new series which is aimed principally at secondary pgce and baed students and school and hei based tutors each book provides a digest of the central issues around a particular topic or issues grounded in or supported by examples of good practice with suggestions for further reading study and investigation the books are not intended as how to books but rather as books which will help students and teachers to explore and understand critical theoretical issues in ways that are challenging that invite critical reappraisals of taken for granted practices and perceptions and that provide appropriate links between theory and practice issues related to equal opportunities and special needs are included in each separate volume there are boxes of questions think abouts further reading and bulleted summary lists for the reader this book is written specifically for teachers in training which will clarify the big picture of monitoring and assessment and makes the crucial distinctions in this large and still taken for granted field the authors have written widely on assessment matters and have also worked in various capacities for the qca and its former manifestations they are also engagerd in initial teacher education and so know the level and market extremely well

this work contains a foreword by dame lesley southgate president royal free and university college

medical school london assessment is a key method of improving standards as well as establishing competency however despite major developments in the assessment of clinical competence in the last two decades there is still more bad practice and ignorance of significant issues in this area than any other aspect of medical higher education this book comprehensively covers all aspects of assessment it considers current and future policy and practice including the modernising medical careers training programme it promotes a system incorporating more meaningful assessments rather than just tests of knowledge and skill assessment in medical education and training will be useful to everyone involved in healthcare education including tutors trainers clinical supervisors and assessors in both primary and secondary care it will also be important reading for consultants and general practitioners with responsibility for registrars and healthcare education policy makers and shapers acquisition of knowledge and skills is not sufficient alone we need to be able to apply the knowledge skills and strategies learnt and in turn these can be the appropriate targets of assessment there is a movement away from traditional multiple choice tests to assessments that include a wide variety of methods and so provide for more meaningful assessments which can better capture significant outcomes in order to assure their future success neil jackson alex jamieson and anwar khan in the introduction this thoughtful provocative and eclectic book is published at a time of enormous change in the content structure and quality assurance of postgraduate medical education in the united kingdom the reader will be challenged and stimulated by the variety of views and emphases essential dame lesley southgate in the foreword
