this important book answers the growing call for us institutions to internationalize create global citizens and better serve diverse populations faculty are increasingly tasked with simultaneously encouraging a more inclusive worldview facilitating

classroom environments that harness the potential of students and advising students who may need an array of university services or speak English as an additional language teaching with a global perspective is an accessible hands on tool for faculty and instructors seeking to facilitate global classroom environments and to offer diverse students the academic language and interpersonal support needed for success rich with practical features including classroom strategies assessments case studies discussion questions and suggestions for further reading in bibliographies chapters address developing a working understanding of global learning and inclusivity identifying opportunities and barriers to helping students grow as global citizens building confidence in teaching with a global perspective facilitating courses and in class participation that promote global and inclusive learning and communication between diverse populations designing curricula courses assignments and assessments that foster global and inclusive learning and support students with varied needs and providing facilitative responses to students academic work teaching with a global perspective bridges an important divide in discussions about globalizing curricula by developing readers content knowledge while also helping them to develop more effective global communication strategies

the purpose of this volume is to help jump start an urgently needed conversation about fairness and justice in access to higher education to counteract the ubiquitous mantras of neoliberal globalization and managerialism the book seeks to carve out a strong moral and normative basis for opposing mainstream developments that engender increasing inequality and market dependency in higher education the book's chapters consider how different national communities channel access to higher education what their implicit social contracts are and what outcomes are produced by different policies and methods the book is essential reading for scholars of higher education and students concerned with increasing inequality in a globalizing educational marketplace

this book invites educators to rethink how knowledge about the world is conceptualized advocating for a decolonized

critical curriculum it emphasizes understanding diverse perspectives and addressing social differences like gender race and religion

a comprehensive review of world war ii that offers a global level analysis written for academics and students of history world war ii in global perspective 1931 1953 presents a dynamic and global account of the historical events prior to during and after world war ii the author a noted expert on the topic explores the main theaters of the war and discusses the connections between them he also examines the impact of the war on areas of the world that are often neglected in historical accounts including latin america sub saharan africa and the so called neutral countries this comprehensive text clearly shows how in the struggle against the axis powers the united states replaced britain as the global superpower the author discusses the japanese invasion of manchuria in 1931 and the korean war 1950 1953 and argues that the core years of the war 1939 1945 cannot be understood without considering the turbulent events that framed them the text puts world war ii in context as a series of large regional conflicts that intersected and overlapped finally emerging as a genuine world war with the formal entry of the united states in late 1941 this vital text offers a comprehensive review of world war ii that frames it in a global context gives weight to the economic and political developments of the war provides a robust account of the main military campaigns contains illustrations and maps that themselves highlight little known aspects of the global war

in this pioneering work paul r abramson and ronald inglehart show that the gradual shift from materialist values such as the desire for economic and physical security to post materialist values such as the desire for freedom self expression and the quality of life is in all likelihood a global phenomenon value change in global perspective analyzes over thirty years worth of national surveys in european countries and presents the most comprehensive and nuanced discussion of this shift to date by paying special attention to the way generational replacement transforms values among mass publics the authors are

able to present a comprehensive analysis of the processes through which values change in addition value change in global perspective analyzes the 1990 91 world values survey conducted in forty societies representing over seventy percent of the world's population these surveys cover an unprecedentedly broad range of the economic and political spectrum with data from low income countries such as china india mexico and nigeria newly industrialized countries such as south korea and former state socialist countries in eastern europe and the former soviet union this data adds significant new meaning to our understanding of attitude shifts throughout the world value change in global perspective has been written to meet the needs of scholars and students alike the use of percentage percentage differences and algebraic standardization procedures will make the results easy to understand and useful in courses in comparative politics and in public opinion paul r abramson is professor of political science michigan state university ronald inglehart is professor of political science and program director institute for social research university of michigan

at last there is a lucid well written ob book which covers key issues required in ob teaching but which has a mind of its own students and faculty will recognize this is more than standard fare bill cooke manchester business school

more than 40 years ago recognizing that higher education would have to take responsibility for educating americans about other world cultures and societies congress passed the national defense education act later known as the higher education act title vi of this act has provided extensive support for foreign languages and area studies development in the nation's universities and colleges as a result millions of americans have been able to acquire knowledge about other parts of the world today there are new issues demands and perspectives americans are more likely than ever to encounter different cultures business practices histories ideologies and ways of life in addition the united states is increasingly called upon to intervene or mediate in regional and local crises far beyond its borders u s educational institutions must continue to help citizens to have informed opinions about complex international problems changing perspectives on international education

is designed to be used by administrators and planners in u s education it covers the field of international studies as it has developed in the united states from its beginnings and accomplishments under title vi to the current paradigmatic shifts taking place in research teaching and outreach a major section is devoted to internationalizing the curriculum of k 12 schools it concludes with a look at future trends and how they may affect international scholarship and training in the new century it also provides an extensive bibliography of international resources

the first text that specifically links both international and internal migration with development at a global level the world is divided into a series of functionally integrated development zones which are identified not simply on the basis of their level of development but also through their spatial patterns and historical experience of migration migration and development stresses the importance of migration in discussing regional rather than simply country differences these variations in mobility are placed within the context of a global hierarchy although regional national and local cultural and social conditions are certainly not ignored in this wide ranging work

accompanying dvd the royal ploughing ceremony of thailand

this was the first introductory text to use a truly comparative global approach to teach sociological concepts and ideas some texts claim to be global by including global boxes however the entire ferrante text is written from this perspective ferrante uses an in depth examination of life in other countries to help students understand sociological concepts while also providing comparison to the united states by integrating throughout each chapter the connections to american society this text gives students a broader understanding of sociological concepts global interdependence and societal differences as well as similarities
