this book is open access under a cc by 4 0 license this book brings together contributions by researchers
 scholars policy makers practitioners professionals and citizens who have an interest in or experience of
 indigenous pathways and transitions into higher education university is not for everyone but a university should
 be for everyone to a certain extent the choice not to participate in higher education should be respected given
 that there are other avenues and reasons to participate in education and employment that are culturally socially
 and or economically important for society those who choose to pursue higher education should do so knowing
 that there are multiple pathways into higher education and once there appropriate support is provided for a
 successful transition the book outlines the issues of social inclusion and equity in higher education and the

contributions draw on real world experiences to reflect the different approaches and strategies currently being adopted focusing on research program design program evaluation policy initiatives and experiential narrative accounts the book critically discusses issues concerning widening participation

diploma thesis from the year 2008 in the subject business economics banking stock exchanges insurance accounting grade 1 8 university of applied sciences essen language english abstract since 1989 retail certificates have become core in the field of retail banking pilz 2006 particularly the stock crash between 2000 and 2003 has fostered the success story of these investment products because many private investors have sustained enormous losses with their stock exposures therefore they have been looking for alternatives to traditional investment forms which are lower in risk but gaining satisfactory returns schiereck 2004 in order to fall in line with this growing specific demand of investors major german banks have invented the new asset class of retail

certificates these products can offer depositors characteristics for every market scenario as its explicit strength
Ihr and cremers 2007 this booming development reached its peak in december 2007 as german private investors
hold 135 bn eur of retail certificates in their deposits barthel 2008 because of their attractive risk return profile
bonus certificates which were issued for the first time by the german bank sal oppenheim in 2003 have gained a
key position in this sector with a market share of 21 9 fischer 2008 the barrage of newly issued products has led
to the circumstance that many private investors are facing the problem of lack in transparency concerning the
structure of bonus certificates the present diploma thesis intends to provide the reader an extensive overview on
the investment segment of bonus certificates thereby the author focuses on the conception and pricing of this
financial structured product in order to develop an investment guideline for investors how to deal with this
complex derivative in particular the author analyses the influence of the input factors both on each embedded
option component and on the bonus certificate as a whole hence inve
