an urgent exploration of how the gendering of emotions came about and what we can do to change these damaging stereotypes

misconceptions about the job hunting process have sabotaged the efforts of countless job seekers from recent college graduates to longtime professionals job hunting in the 21st century pinpoints the most common myths surrounding the process of job changes helping the reader beat the competition through the author's distinctive techniques

a study of the greek mythological wars between olympians titans giants centaurs lapiths and humans and their significant influence on later cultures even though war and conflict generally feature prominently in greek mythology comparatively little has been written on the subject this is surprising because wars and battles in greek mythology are freighted with symbolism and laden with meaning and significance historical political social and cultural the gods and goddesses of war are prominent members of the greek pantheon the battles fought by and between olympians titans giants and amazons between centaurs and lapiths were pivotal in greek civilization the trojan war itself had huge and far reaching consequences for subsequent greek culture the ubiquity of war themes in the greek myths reflects the prominence of war in everyday greek life and society which makes the relative obscurity of published literature all the more puzzling this book redresses this by showing how conflict in mythology and legend resonated loudly as essential existentialist even symbols in greek culture and how they are represented in classical literature philosophy religion feminism art statuary ceramics architecture numismatics etymology astronomy even vulcanology praise for war in greek mythology an excellent study of the more military of the greek myths telling the stories while also acknowledging the many different versions of so many of them and also the varying attitudes of the ancient greeks to these stories history of war

this controversial book argues that the reality of the expanding desert is not so much an objective scientific fact as a political social and observational construct examines the origin of the desertification myth how it spawned multimillion dollar research initiatives and became a leading environmental issue uses new research findings to demonstrate that this highly vaunted problem is extremely smaller and less locally significant than

previously accepted includes a wealth of illustrations from global examples

americans have had an enduring yet ambivalent obsession with the west as both a place and a state of mind michael l johnson considers how that obsession originated how it has determined attitudes toward and activities in the west and how it has changed over the centuries

the best performing organisations recognise that effective executive coaching is a key factor in developing successful leaders and teams having worked directly with more than 40 of the fortune top 100 global corporations for more than fifteen years the authors have accumulated a practical insight for delivering enduring executive development this book steps beyond the notion of a prescriptive formula that can be applied to deliver successful development every time it presents unabridged accounts reflecting both success and failure from a range of diverse international executive coaching assignments it will develop your coaching ability and provide an insight into the contemporary personal and organisational challenges that define the context for coaching this is a truly comprehensive account of executive coaching across the world

lee j williames views anton chekhov as a change agent and iconoclast in a manner similar to zola and darwin this study shows that chekhov was deeply influenced by the scientific method that he was objective in his representations and that he carefully chose what he wrote about it was his intention to explode stereotypes by clearly and objectively stating the problems of russian society in his stories he felt that his readers would be moved to accomplish change through individual initiative if they saw clearly what the problems were in russia to demonstrate these points this work presents an intellectual biography of chekhov and then examines the objectivity and validity of his views on russian society

part of the successful ph ptr essential guide to series this book will look at where e business has been where it is today and where it is going in terms and at a level that will help the businessperson sort out the hype from the real

we have entered an age of disruption financial collapse climate change resource depletion and a growing gap

between rich and poor are but a few of the signs otto scharmer and katrin kaufer ask why do we collectively create results nobody wants meeting the challenges of this century requires updating our economic logic and operating system from an obsolete ego system focused entirely on the well being of oneself to an eco system awareness that emphasizes the well being of the whole filled with real world examples this thought provoking guide presents proven practices for building a new economy that is more resilient intentional inclusive and aware

inside front cover flap professor jeremy dunning davies had been sincerely and deeply worried over for a number of years by the pernicious effects that non scientific influences have had and continue to have on scientific research this book expresses his concern that many scientific theories are not treated as theories but are being perceived as already proven challenges to these ideas hypotheses and suppositions are therefore seldom acknowledged or supported by certain sectors of the establishment if these outside pressures adversely influence the area of physics professor dunning davies put forward the very real possibility of them affecting other areas of science such as medicine where trust and honesty assume increasing importance
