over the past two decades the democratic republic of congo has been at the
centre of the deadliest series of conflicts since the second world war and now

hosts the largest united nations peacekeeping mission in the world in this compelling book acclaimed journalist michael deibert paints a picture of a nation in flux inching towards peace but at the same time solidifying into another era of authoritarian rule under its enigmatic president joseph kabila featuring a wealth of first hand interviews and secondary sources the narrative travels from war torn villages in the country s east to the chaotic pulsing capital of kinshasa in order to bring us the voices of the congolese from impoverished gold prospectors and market women to government officials as it explores the complicated political ethnic and economic geography of this tattered land a must read for anyone interested in contemporary africa the democratic republic of congo between hope and despair sheds new light on this sprawling and often misunderstood country that has become iconic both for its great potential and dashed hopes

satellite images acquired at night provide a visually arresting perspective of the earth and the human activities that light up the otherwise mostly dark earth these night time light satellite images can be compiled into a geospatial time series that represent an invaluable source of information for both the natural and social sciences night time light remote sensing has been shown to be particularly useful for a range of natural science and social science applications including studies relating to urban development demography sociology fishing activity light pollution and the consequences of civil war key sensors for these time series include the defense meteorological satellite program s operational linescan system dmsp ols and the suomi national polar orbiting partnership satellite s visible infrared imaging radiometer suite day night band suomi npp viirs dnb an increasing number of alternative sources are also available including high spatial resolution and multispectral sensors this book captures key methodological issues associated with pre processing night time light data documents state of the art analysis methods and explores a wide range of applications major sections focus on npp viirs dnb processing inter calibration between npp viirs and dmeps ols applications associated with socio economic activities applications in monitoring urbanization and fishing activity monitoring the chapters in this book were originally published as a special issue of the international journal of remote sensing

the robert trent jones golf trail tells how a bold imaginative investment by a public employee pension fund turned into a world class tourist attraction that helped change the image and boost the economy of an entire state the pension fund was the retirement systems of alabama and its alternative investment was in a string of golf courses and affiliated high end hotels and spas in business speak

this was an economically targeted investment designed to diversify returns create jobs and increase tax revenue twenty five years later the robert trent jones golf trail is known worldwide for the quality and beauty of its courses and the hospitality and elegance of its resorts it has significantly increased alabama s infrastructure for tourism and conventions provided millions upon millions in new tax revenues spurred construction of thousands of units of adjacent housing and helped persuade other businesses to locate in the state making the golf trail a reality involved not only the initial vision of ceo david g bronner and his associates at rsa but also the design genius and reputation of robert trent jones sr and the hard work of many dedicated engineers and builders it also required the cooperation of scores of local and state elected officials and economic developers this book is the illustrated historical account of the financial legal political and economic impact details of rsa s investment in the rtj golf trail such a detailed history could not have been written without the years of economic analysis conducted by author mark fagan dating back to the earliest stages of the concept fagan s ongoing involvement with dr bronner and those working to develop the trail made possible the mammoth one of a kind history that is presented in this book

this publication presents the resolutions and decisions adopted by the general assembly of the united nations during its sessions the report indicates the allocation of agenda items contains a list of principal and subsidiary organs with reference to their composition and includes a list of conventions declarations and other instruments

in the wake of the protests that toppled regimes across the middle east in 2011 sudanese activists and writers have proudly cited their very own arab springs of 1964 and 1985 which overthrew the country s first two military regimes as evidence of their role as political pioneers in the region whilst some of these claims may be exaggerated sudan was indeed unique in the region at the time in that it witnessed not one but two popular uprisings which successfully uprooted military authoritarianisms civil uprisings in modern sudan provides the first scholarly book length history of the 1964 and 1985 uprisings it explores the uprisings themselves their legacy and the contemporary relevance they hold in the context of the current political climate of the middle east the book also contends that the sort of politics espoused by various kinds of islamist during the uprisings can be interpreted as a form of early post islamism in which islamist political agendas were seen to be compatible with liberalism and democracy using interviews arabic language sources and a wealth of archival material this book is

an important and original study that is of great significance for scholars of african and middle eastern political history
