conceptualising terrorism argues that while there have always been good reasons for striving for a universally agreed definition of terrorism there are further reasons for doing so in the post 9 11 environment notwithstanding the formidable challenges that confront

such an endeavour

green infrastructure encompasses many features in the built environment it is widely recognised as a valuable resource in our towns and cities and it is therefore crucial to understand create protect and manage this resource this handbook sets the context for green infrastructure as a means to make urban environments more resilient sustainable liveable and equitable including state of the art reviews that summarise the existing knowledge as well as research findings this handbook provides current evidence for the beneficial impact of green infrastructure on health environmental quality and the economy it discusses the planning and design of green infrastructure as a strategic network down to the individual features in a neighbourhood and looks at the process of green infrastructure implementation emphasising the importance of collaboration across multiple professions and sectors this comprehensive volume operates at multiple spatial scales from strategic networks at the regional level to individual features in neighbourhoods with international case studies used throughout to illustrate key examples of good practice this collection of expert contributions will be invaluable to students and academics in the fields of planning urban studies and geography practitioners and policy makers will also find the policy discussion and examples enlightening

in a multipolar world with growing demand for energy not least by emerging powers such as brazil india china or south africa bics questions of eu external energy governance would at first hand appear to be a high priority yet reality tells a different story the eu s geographical focus remains on adjacent countries in the european neighbourhood and on issues related to energy security despite being strategic partners and engaging in energy dialogues it seems that the eu is lacking strategic vision and is not perceived as a major actor in energy cooperation with the bics thus political momentum for energy cooperation and joint governance of scarce resources is vanishing resulting from three years of international interdisciplinary research cooperation among academics and practitioners in europe and the bics countries within a project funded by the volkswagen foundation this volume addresses one of the greatest global challenges specific focus lies on the bilateral energy dialogues and strategic partnerships between the eu and emerging powers regarding bilateral inter and transnational energy cooperation furthermore the analysis provides policy recommendations in order to tap the full potential of energy cooperation between the eu and brazil india china and south africa

the building of railways has had a profound but largely ignored physical impact on britain s coasts this book explores the coming of railways to the edge of britain the ruthlessness of the companies involved and the transformation of our coasts through

this edited volume explores the analytical possibilities of contrasting brazil and the united kingdom as examples of emerging and established powers respectively it is organised around several themes focusing on the roles of brazil and the united kingdom in the management of global economic governance international development international security the politics of regional integration global climate change governance and the political leveraging of sports mega events each chapter explores brazil s and or the uk s particular foreign policies and their resulting impact on these key areas of global governance and politics the conceptual focus is on these states motivations as either status seekers brazil or status maintainers uk in the context of a fast moving international landscape the chapters in this book directly or indirectly indicate that these states wish to draw attention to their aspiring or established positions as key global players through either visible foreign policy action and or symbolic rhetoric this book was originally published as a special issue of global society

brings together over 10 year worth of archaeological research into the forest of dean

the health systems we enjoy today and expected medical advances in the future will be difficult to finance from public resources without major reforms public health spending in oecd countries has grown rapidly over most of the last half century these spending increases have contributed to important progress in population health for example life expectancy at birth has increased rising on

average by ten years since 1970 the challenge now is to sustain and enhance these achievements in a context of tight fiscal constraints in many countries combined with upward pressure on health spending from factors such as new technological advances and demographic changes finding policies that can make health spending more sustainable without compromising important achievements in access and quality requires effective co operation between health and finance ministries sound governance and co ordination mechanisms are therefore essential to ensure effective policy choices prepared by both public finance and health experts this report provides a unique detailed overview of institutional frameworks for financing health care in oecd countries one of the main features of this book is a comprehensive mapping of budgeting practices and governance structure in health across oecd countries
