what are the key ideas that underpin learning from experience how do we learn from experience how does context and purpose influence learning how does experience impact on individual and group learning how can we help others to learn from their experience using experience for learning reflects current interest in the importance of experience in informal and formal learning whether it be applied for course credit new forms of learning in the workplace or acknowledging autonomous learning outside educational institutions it also emphasizes the role of personal experience in learning ideas are not separate from experience relationships and personal interests impact on learning and emotions have a vital part to play in intellectual learning all the contributors write themselves into their chapters giving an autobiographical account of how their experiences have influenced their learning and what has led them to their current views and practice using experience for learning brings together a wide range of perspectives and conceptual frameworks with contributors from four continents and should be a valuable addition to the field of experiential learning

this monograph offers perspectives that challenge the increasingly taken for granted assumptions about the renewed interest in experiential principles and methods chapter 1 identifies the different dimensions of experiential education it

describes contemporary examples to demonstrate the political economic and ideological differences in their use contemporary texts on experiential education are examined to explore how their perspectives contribute to and or reflect these divergences finally the chapter suggests how a critical perspective one that does not take for granted the usefulness of experiential approaches but seeks to identify the different and often conflicting purposes behind their use can inform the development of learning and training chapter 2 argues that experience is intense unique and profoundly social the individual may construct her his own learning yet the ingredients for such a construction come from elsewhere it sees one central source of experience as the economic system that places people in and out of work up and down the hierarchies of power and status the chapter also explores why some experiences seem more persuasive than others the monograph concludes by addressing the educational issue of the present whether experiential perspectives are employed or not the assault on traditional notions of liberal adult education contains 77 references ylb

in this book we take the reader on a journey through the various curriculum reforms that have emerged in the usa around the idea of conducting education outdoors through initiatives such as nature study camping education adventure education environmental education experiential education and place based education this is a historical journey with an underlying message for educators one we are able to illuminate through the educational theories of john dewey central to this message is a deeper understanding of human experience as both aesthetic and reflective leading to a more coherent comprehension of not just outdoor education but of education itself

advances in business education training is a book series to foster advancement in the field of business education and training it serves as an international forum for scholarly and state of the art research and development into all aspects of business education and training this new volume deals with several aspects of the challenge to design learning in and for a changing world the first part concerns program development how to build curricula that are future proof principles to innovate our curricula are identified it answers the question how we can incorporate the need for change in our thinking about curriculum development and identify the necessary elements to incorporate in our curricula the

second part focuses on the increasing diversity of students and employees within our schools and organizations in terms of culture language and perception of ability gifts and talents this offers a range of opportunities but at the same time can possibly jeopardize some processes that are taken for granted chapters in this part analyze the processes that play a crucial role in dealing with this diversity and identify educational practices that can help to harvest the potential that lies within this diversity the third part of this book digs further into the possibilities that are opened up by the implementation of ict support in our learning environments e learning provides tools to adapt these environments to the needs of an increasingly diverse student population in the last part we focus specifically on the workplace and how learning can be designed in such a way that employees are equipped for a shifting workplace on the one hand it is looked how training can affect performance in the workplace does learning transfer to the work environment on the other hand it is questioned how one can design affordances to trigger learning in the workplace

education experience and existence proposes a new way of understanding education that delves beneath the conflict confusion and compromise that characterize its long history at the heart of this new understanding is what john dewey strove to expound a coherent theory of experience dewey s reputation as a pragmatist is well known but where experience is concerned pragmatism is only half the story the other half is phenomenological as crafted by martin heidegger encompassing both is charles sanders peirce whose philosophy draws pragmatism and phenomenology together in an embrace which enables a truly experiential philosophy to emerge the book approaches the problem of confusion in education and philosophy by beginning with our most basic understandings of existence existence as an interaction is the starting point of modern science and existence as individuality offers an aesthetic origin attending to existence as a simple unity in our contemporary world where scientific ways of thinking are privileged the aesthetic

whole is often overlooked especially in education yet both are connected a coherent theory of experience is therefore a marriage between phenomenology and pragmatism enabling each to maintain its position by acknowledging how both are required the book is divided into three main parts confusion in philosophy and education a coherent theory of experience a coherent theory of education quay suggests that education benefits from such a coherent theory of experience by better comprehending its connection to life more than just knowing more than just doing education is about being this book will be of interest to philosophers educators and educational philosophers
