as the first real contraceptive innovation in over 20 years and as a long acting method requiring clinical intervention for application and removal the implantable contraceptive norplant has raised a wide range of issues that could offer valuable lessons about the problems to be addressed if other new contraceptive technologies are to enter the marketplace in april 1997 an institute of medicine workshop on implant contraceptives reviewed newly available data on norplant s efficacy safety and use identified lessons to be learned about the method s development introduction use and market experience and explored approaches to developing and introducing new contraceptives based on those lessons this resulting book contains an examination of norplant s efficacy and safety its user populations training for insertion and removal consumer perspectives quality of care informed decisionmaking and consumer involvement and new approaches to contraceptive development and introduction an appendix contains summaries of 17 workshop presentations

youth studies an introduction is a clear jargon free and accessible textbook which will be invaluable in helping to explain concepts theories and trends within youth studies the concise summaries of key texts and the ideas of important theorists make the book an invaluable resource the book also raises questions for discussion with international case studies and up to date examples the book discusses important issues within youth studies for example education and opportunity employment and unemployment family friends and living arrangements crime and justice identities health and sexuality citizenship and political engagement suitable for a wide range of youth related courses this textbook provides a theoretical and empirical introduction to youth studies it will appeal to undergraduate students on international academic and vocational courses including sociology politics criminology social policy geography and psychology

this anthology for first and second year students introduces them to the history of key ideas in the modern period related to sexual difference gender race class and sexuality while most introductory women s studies textbooks focus on the united states even if they add multiculturalism to the discussion this book looks at the history of important differences between women in diverse locations around the world and continually challenges students to think through the issues that are raised this transnational approach to understanding gender brings women s studies into an era of globalization and connects women s issues in the united states to women s issues elsewhere the book shows how colonialism and imperialism as they spread across the world shaped ideas about gender as much as other modern phenomena it addresses issues of power and inequalities and focuses on links and connections rather than commonalties the readings are truly interdisciplinary drawing upon scholarly work in many disciplines and interdisciplinary fields as well as non scholarly sources
