landmark study on the role of gestures in relation to speech and thought

research on the multifaceted aspects of modeling analysis and synthesis of man gesture is receiving growing interest from both the academic and

industrial communities on one hand recent scientific developments on cognition on affect emotion on multimodal interfaces and on multimedia have opened new perspectives on the integration of more sophisticated models of gesture in computersystems ontheotherhand theconsolidationofnewtechnologiesenabling disappearing computers and multimodal interfaces to be integrated into the natural environments of users are making it realistic to consider tackling the complex meaning and subtleties of human gesture in multimedia systems abling a deeper user centered enhanced physical participation and experience in the human machine interaction process the research programs supported by the european commission and several national institutions and governments individuated in recent years strategic fields strictly concerned with gesture research for example the dg information society of the european commission cordis lustr supports several initiatives such as the disappearing computer and presence eu lustr future and emerging technologies the lustr program interfaces enhanced audio visual services see for example the project mega multisensory pervasive gesture applications megaproject.org and the lustr strategic jective multimodal interfaces several ec projects and other funded research are represented in the chapters of this book awiderangeofapplicationscanbenefitfromadvancesinresearchongesture from consolidated areas such as surveillance to new or emerging fields such as therapy and rehabilitation home consumer goods entertainment and audiovisual cultural and artistic applications just to mention only a few of them

over the past few years scientists and philosophers have discussed the concept of gesture as promising to overcome hyper intellectualist conceptions of human beings its ascendancy reaffirmed the importance of the pragmatic relational dimension in human experience and cognitive processes many questions arise when we focus on the cognitive role of gestures especially in the new cultural landscape shaped by the digital revolution does the idea of gestures highlight the preeminence of bodily experiences does it lead to the thinning of the distinction between humans and nonhuman animals do gestures help us rethink the allegedly higher human capacities in an antireductionist vein do gestures involve reasoning are they purely external actions do they serve to communicate or is all communication a form of gesture what kinds of social relations are involved in the concept of gesture according to a multidisciplinary orientation the book inquiries into the possibilities and issues opened up by attending to a philosophy of gestures in philosophy sociology psychology anthropology and communication studies given the current centrality of gestures the general aim of the book is to reconsider the meaning of gestures and try to answer old and new questions

this book presents the thoroughly refereed post workshop proceedings of an international workshop on gesture and sign language in human computer interaction held in bielefeld germany in 1997 the book presents 25 revised papers together with two invited lectures recently gesture and sign language have become key issues for advanced interface design in the humanization of computer interaction ai neural networks pattern recognition and agent techniques are having a significant impact on this area of research and development the papers are organized in sections on semiotics for gesture movement hidden markov models motion analysis and synthesis multimodal interfaces neural network methods and

applications

this book constitutes the thoroughly refereed post proceedings of the cost action 2102 international workshop on verbal and nonverbal communication behaviours held in vietri sul mare italy in march 2007 the twenty six revised full papers presented together with one introductory paper comprise carefully reviewed and selected participants contributions and invited lectures given at the workshop the papers are organized in topical sections

summarizing her pioneering work on the semiotic analysis of gestures in conversational settings geneviève calbris offers a comprehensive account of her unique perspective on the relationship between gesture speech and thought she highlights the various functions of gesture and especially shows how various gestural signs can be created in the same gesture by analogical links between physical and semantic elements originating in our world experience via mimetic and metonymic processes these analogical links are activated by contexts of use and thus lead to a diverse range of semantic constructions rather as from the components of a meccano kit many different objects can be assembled by re presenting perceptual schemata that mediate between the concrete and the abstract gesture may frequently anticipate verbal formulation arguing for gesture as a symbolic system in its own right that interfaces with thought and speech production calbris book brings a challenging new perspective to gesture studies and will be seminal for generations of gesture researchers

gesture or visible bodily action that is seen as intimately involved in the activity of speaking has long fascinated scholars and laymen alike written by a leading authority on the subject this 2004 study provides a comprehensive treatment of gesture and its use in interaction drawing on the analysis of everyday conversations to demonstrate its varied role in the construction of utterances adam kendon accompanies his analyses with an extended discussion of the history of the study of gesture a topic not dealt with in any previous publication as well as exploring the relationship between gesture and sign language and how the use of gesture varies according to cultural and language differences set to become the definitive account of the topic gesture will be invaluable to all those interested in human communication its publication marks a major development both in semiotics and in the emerging field of gesture studies

the book first considers the use of gesture in the drama then proceeds to develop a theory on the meaning of gesture in the narrative this theory is then applied to kleist s michael kohllaas and kafka s der prozess both texts are subjected to a thorough formal analysis which considers the functional meaning of gesture and describes the peculiarities of each author s style the result of these analyses is compared in the light of previous scholarship and an opinion is offered on the alleged stylistic link between the two authors

annual report of the bureau of ethnology to the secretary of the smithsonian institution
