this book was the end product of life experiences thoughts and intellectual wanderings of the author who through his career and for the last twenty years was always serving all the three aspects of a psychiatrist he is a clinician a researcher and an academic teacher the book includes a comprehensive history of psychiatry since antiquity and until today with an emphasis not only on main events but also specifically and with much detail and explanations on the chain of events that led to a particular development at the center of this work is the question what is mental illness and does free will exist these are questions which tantalize psychiatrists neuroscientists psychologists philosophers patients and their families and the sensitive and educated lay persons alike thus the book includes a comprehensive review and systematic elaboration on the definition and the concept of mental illness a detailed discussion on the issue of free will as well as the state of the art of contemporary psychiatry and the socio political currents it has provoked finally the book includes a description of the academic social and professional status of psychiatry and psychiatrists and a view of future needs and possible developments a last moment addition was the chapter on conspiracy

theories as a consequence of the experience with the social media and the public response to the covid 19 outbreak which coincided with the final stage of the preparation of the book their study is an excellent opportunity to dig deep into the relation among human psychology mental health the society and politics and to swim in intellectually dangerous waters

the covid 19 pandemic has affected the lives of many people around the globe and has brought to the fore discussions about the ways in which relations of power have shaped human biology and the health of populations focusing on these biopolitics this collection brings together a number of historical and cultural perspectives on processes of othering in the long transnational human history of epidemics and pandemics contributors explore the intertwinement of biopolitics and othering with regard to specific bodies people and places in relation to covid 19 and beyond as they discuss othering dynamics in the context of post colonialism and with reference to a number of different cultural political medical and media discourses

covid 19 had an enormous impact on society around the globe by 5th march 2023 when the who officially declared the pandemic emergency over societies affected by it had been profoundly changed the covid 19 pandemic not only had medical consequences but also significant effects related to the mechanisms involved in its discursive construction as a phenomenon of wide significance in various social arenas reaching a highly polarized form public debate on compulsory vaccination against covid 19 constituted an essential component of mechanisms not only for stance taking for creating opportunities for self and other positioning and for covering discursive positions but also for subverting existing epistemic orders the present volume reconstructs this complex discursive phenomenon with examples from italy germany and the usa and invites critical reflections on the way societies around the globe have faced the extreme crisis sparked by the pandemic

this revised and updated edition offers an indepth analysis of the true nature of the controversial new age movement and of social and personal transformation in the 1980s

mad studies the basics provides an introductory account of a field that emerged from and must remain grounded within community knowledge activism and the perspectives of those who have experienced madness and mental health systems it is a concise text that introduces the field through an exploration of some origins of mad studies as well as two interrelated queries what does mad studies help us understand and what does mad studies help us do this exploration reveals that mad studies is an interdisciplinary intersectional and multi vocal field that demands different answers to the very meaning of the beliefs behaviours and bodymind experiences that are currently characterized as being indicative of mental illness at the heart of mad studies is a liberationist desire to resist transform and abolish the systems that create marginalization and implement responses to madness that are grounded in the collective knowledge of those deemed mad this book shows that the contributions of

indigenous black racialized queer and trans people must be understood as central to and already embedded within mad studies and activism rather than as add ons expansions or efforts to make mad studies more inclusive it will be of interest to all scholars and students of disability studies social work gender studies education health sciences sociology and psychology as well as practitioners in mental health care and those with lived experience of madness and mental health systems

medicine and literary studies are often thematically aligned since the former can be understood as an interpretive science literary texts across all genres and time periods deal with medical issues that portray illness patients suffering recovering or doctors at work thus pointing towards a deep seated interest in the human condition enveloping the growing interdisciplinary field of medical humanities this book examines the connections between medicine and fictional non fictional literature from the early modern period to the most recent present from literary medical and cultural studies perspectives series natural sciences and humanities in dialogue kultur und naturwissenschaften im dialog vol 2

the book explores the impacts of the covid 19 pandemic on nations across the globe since early 2020 it hosts a variety of perspectives within economic social and development research studies providing contemporary and proper information the book also presents policy prescriptions for developing economies critiques the system of disease surveillance and waste management and defines a vision for india s development it also mirrors issues related to digitisation marginalisation government regulations and health systems and provides original ideas for innovative methodologies suitable for higher education print edition not for sale in south asia india sri lanka nepal bangladesh pakistan and bhutan

the catholic church is the world s largest non governmental provider of health care more than a quarter of all the health care facilities in the world are under catholic auspices those facilities however range from technologically sophisticated urban hospitals to small under resourced rural clinics pope francis has said health care is not a luxury it is for everyone but the gap between health care for those with means to pay and those without continues to widen this volume gathers scholars and practitioners from around the world to reflect on some of the most pressing challenges to catholic health care among some of the globe s most underserved people in addition to local narratives and analysis the volume also reflects dialogues between care providers in different parts of the global south and between practitioners in the global south and the global north the chapters in this volume question the missionary model of the rich north rescuing the poor south and show how a universal church can promote dialogue between western and non western medicine and traditions of care

over the past forty years the health humanities previously called the medical humanities has emerged as one of the most exciting fields for interdisciplinary scholarship advancing humanistic inquiry into bioethics human rights health care and the uses of technology it has also helped inspire medical practitioners to engage in deeper reflection about the human elements of their practice in health humanities reader

editors therese jones delese wear and lester d friedman have assembled fifty four leading scholars educators artists and clinicians to survey the rich body of work that has already emerged from the field and to imagine fresh approaches to the health humanities in these original essays the collection s contributors reflect the extraordinary diversity of the field including scholars from the disciplines of disability studies history literature nursing religion narrative medicine philosophy bioethics medicine and the social sciences with warmth and humor critical acumen and ethical insight health humanities reader truly humanizes the field of medicine its accessible language and broad scope offers something for everyone from the experienced medical professional to a reader interested in health and illness

what if 95 of modern medicine is scientifically and medically wrong the biomedical paradigm describes the underlying philosophy or pattern of thinking behind modern medicine what if the biomedical paradigm is fundamentally flawed resulting in 95 of modern medicine being scientifically and medically wrong doctors are mostly nice hard working and respectable people but what if they are killing and injuring many many times more people than they are healing because of their insane belief in the biomedical paradigm they have already been remarkably successful in killing millions of people with vaccinations chemotherapy and hiv aids they now want to create a medically induced bird flu pandemic that could kill tens of millions of people they will succeed in this endeavour unless enough ordinary people understand the horror that is the biomedical paradigm the biomedical paradigm is the ultimate conspiracy because most of us more than 99 of us currently believe it to make common sense to be scientific and to be true however there is a simple scientific explanation as to why a person gets a specific cancer or disease cancer is not a meaningless failure of nature but is rather a meaningful event which occurs for a specific reason once you know this you will no longer fear cancer nor any other disease because you will understand it cancer is curable when enough ordinary people know this easily understandable and scientific explanation for cancer the biomedical paradigm will be seen for what it really is and can then be finally overcome

this text takes a biopsychosocial approach to three inrelated themes the intimate interconnection of psychological and behavioural processes with physical health coping and adaptation and interpersonal relationships in health and health care

csa sociological abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences the database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers
